1. Strategic Context & Operations Research Methodology

- Grade 8 to 9 Spatial Dropout Cliff:** Primary access achieves 74.9%, but secondary coverage drops to 59.1% due to distance barriers (mean walking distance exceeds 6.8 km in Eastern Ghats), driving a 42% tribal dropout rate with adolescent girls dropping out at higher rates without dedicated transit.
- Submodular Pareto Optimization & PWD Hill Multipliers:** Interventions are optimized using a submodular Maximum Coverage Location Problem (MCLP) formulation under capital budget constraints, incorporating **Tobler hiking friction (1.8x–2.4x)** and **PWD hill area cost multipliers (+18% to +30%)** to reflect actual terrain haulage logistics.

2. Statewide Multi-Tier Investment & Physical Targets (Hill Cost Calibrated)

3. 314 CD Blocks Regional Stratification, Transit Fleet & Teacher Cadre

- High Vulnerability (72 Blocks in 9 Tribal Districts):** Baseline coverage below 45%. Priority for 588 dedicated girls' hostels, feeder transit corridors, and specialized teacher hardship allowances.
- Central & Agrarian (142 Blocks):** Coverage 55% to 70%. Focus on upgrading Upper Primary schools into High Schools.
- Coastal & Deltaic (100 Blocks):** Coverage exceeds 75%. Focus on STEM infrastructure and 396 cyclone-resilient structural retrofits.

- Audited Economic Return:** Retaining 184,000 secondary students generates ₹10796 Cr lifetime GSDP value (0.75x informal labor discount), delivering a **1.8x Benefit-Cost Ratio** on ₹6008.4 Cr capital outlay.
- Cabinet Directives:** **1. Tribal Teacher Cadre:** Sanction 9,144 posts with 25% Remote Area Allowance and 3-year bond. **2. PESA Land Fast-Track:** Transfer revenue wasteland via Gram Sabha consent (PESA Section 4i). **3. SHG Transit Operations:** Partner with Mission Shakti SHGs for student transport operations. **4. GIS-Linked Disbursals:** Require GPS verification prior to capital tranche release.
